Behold I Come Quickly - Study in Revelation

21A - A New Heaven and a New Earth *Revelation 21:1-8*

Dr. Henry Madison Morris

There will, in fact, be no need for a sea on the new earth. The present sea is needed...as a basic reservoir for the maintenance of the hydrologic cycle and the water-based ecology and physiology of the animal and human inhabitants of the earth. In the new earth, however, there will be no animals at all, and presumably all men and women who live there will have glorified bodies with no more need of water.

There will be _____ water in heaven.

~ *Revelation 21:6*

~ *Revelation 22:1*
